## Step 1: Install WPS-N-4*x* and WPS-5

Slide the WPS-5 boot onto the 7/8" cable 8-12" from the end prior to cable prep.

Prep the 7/8" cable and install the 7/8" connector. Refer to the JMA installation instructions.

Slide the 1/2" to 7/8" adaptor onto the 1/2" cable, then the WPS-N-4*x* 8-12" from the end prior to cable preparation.

Prep the 1/2" cable and install the 1/2" connector. Refer to the JMA installation instructions. Install the port seal provided with the female connector.

Step 2: Connect and torque interface

Mate the male connector to the female connector.

Torque the connector according to the installation instructions provided.

Step 3: Install JMA WPS to seal interface

Slide the WPS-N-4*x* over the port seal until ribs are no longer visible.

Slide the 1/2" to 7/8" adaptor over the WPS-N-4*x* until it bottoms against the 7/8" connector.

Slide the WPS-5 over the 1/2" to 7/8" adaptor until the WPS-5 is fully seated.
