techsupport@jmawireless.com

JMA's field made cluster connector assembly solution allows for flexible deployment and easy maintenance, without compromising the increased installation speed and decreased costs of using JMA's cluster solution. The overall configuration possibilities and compatible parts are shown below.

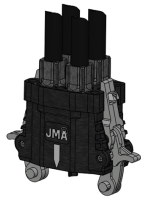

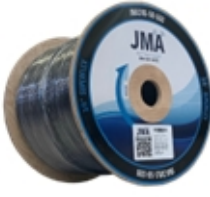

Key features

- Keying feature eliminates mis-mating, reducing human error during installation
- Integrated waterproof design, eliminating the need for additional sealing
- Replace individual jumpers for simplified maintenance

Field Made Connectors

Part Number	Description
K4X-H-38S-01	Cluster Housing Kit + 4 x UXP-KR-38S-01
JMA38S-50	3/8" Superflexible Coaxial Cable, 500ft

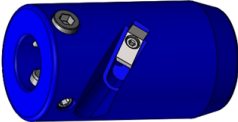

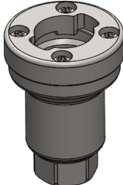

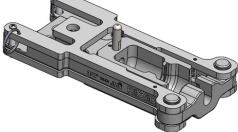

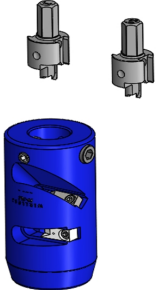

K4X-H-38S-01		Cable	Radio End: Available Interfaces	
			4.3-10 Male, torque type	UXP-4MT-38S-01
			2.2-5 Male	UXP-2MT-38S-01
			NEX10 Male	UXP-1MT-38S-01
			NEX10 RA Male	UXP-1RT-38S-01
			4.3-10 RA Male	UXP-4RT-38S-01
			2.2-5 RA Male	UXP-2RT-38S-01
Cluster Housing	UXP-KR-38S-01	JMMA38S-50	4.3-10 Female	UXP-4F-38S-01

Tool Kits

Part Number	Description
SP-KR-01	Cluster Prep Tool
HCG-INSERTK-38S	Cluster Frameset Insert
JMA-KM-01	Cluster Test Adapter
KIT-KXR-01	SP-KR-01, HCG-INSERTK-38S, JMA-KM-01
KIT-KXR-FULL-01	KIT-KXR-01 + SP-38S-01 + HCG-FRAMESET-38S

Field Made Cluster Connector Assembly
